

KAWAMOTO CMF

SYMPOSIUM

30TH APRIL - 3RD MAY, 2018

LUXOR - EGYPT

Welcome Messages

WELCOME OF THE COURSE **CHAIRMAN**

Dear participants,
Putting on a course in craniomaxillofacial surgery as proposed by my Egyptian fellow Dr. Karam Allam made me pause and think about the challenge. The only time that I can recall this being done by one surgeon dates back to 1967, when Dr. Paul Tessier invited a small group of surgeons to judge his work.

Much has changed during the interim. However, the field remains as dynamic as ever. This course is a concentrative effort in a short amount of time to communicate knowledge. Back and forth dialog with the participants is stimulating and educational for all. I am looking forward to the dialog.

Dr. Henry Kawamoto, MD, DDS (Chairman)

WELCOME OF THE COURSE **DIRECTOR**

Dear Colleagues and friends,
After the success of the first two Kawamoto CMF courses.... we bring the event for the third time. The course brings a wide variety of educational opportunities. We hope you'll be thoroughly engaged in an exciting and interactive learning experience. The course offers lectures by the world pioneer craniofacial surgeon Dr. Henry Kawamoto and some of the top educators and researchers in the specialty, introducing experience, ideas and techniques that will both inspire dialogue and assist you in your future career.

Dr. Karam Allam, MD (Director)

SYMPOSIUM DESCRIPTION:

Four days symposium that discuss state-of-the-art craniofacial and orthognathic surgery to have a step forward broadening your knowledge and mastering the techniques in the up to date management of different craniofacial deformities. It is composed of interactive lectures about congenital and acquired craniofacial deformities as well as orthognathic surgery.

SYMPOSIUM OBJECTIVES:

1. To review the relevant clinical craniofacial embryology, growth and biology.
2. To review diagnostic and operative planning modalities for craniomaxillofacial disorders.
3. To provide an update of different surgical techniques in craniofacial and orthognathic surgery.
4. To emphasize the necessity and efficacy of multidisciplinary approach in the management of patients with craniomaxillofacial disorders.

TARGET PARTICIPANTS

- Plastic surgeons
- Oral and Maxillofacial surgeons
- Neurosurgeons
- Surgeons of related disciplines

Venue:

Luxor City - Egypt
Jolie Ville Kings Island
Luxor

FACULTY

Dr. Henry Kawamoto, MD, DDS (Chairman)
*Professor of Plastic Surgery
University of California Los Angeles, USA
Founding Father of International Society
of Craniofacial Surgery*

Dr. Karam Allam, MD (Director)
*Associate Professor of Plastic Surgery
Sohag University, Egypt*

INTERNATIONAL FACULTY

Dr. James Bradley, MD
*Professor of Plastic Surgery
Temple University, USA*

Dr. Brian Andrews, MD
*Associate Professor of Plastic Surgery
Kansas University, USA*

NATIONAL FACULTY

Dr. Amir Elbarabary, MD
*Professor of Plastic Surgery
Ain Shams University, Egypt*

Dr. Ahmed Elsherbiny, MD
*Associate Professor of Plastic Surgery
Sohag University, Egypt*

Dr. Mostafa Taha, PhD
*Assistant Professor of Oral and
Maxillofacial Surgery
Ain Shams University, Egypt*

Dr. Sherif Bakri, MD
*Assistant Professor of Plastic Surgery
Sohag University, Egypt*

SYMPOSIUM PROGRAM:
MONDAY, 30TH APRIL 2018

Session 1: Craniofacial Surgery 1

09:00 – 10:00	History of craniofacial surgery – A personal perspective Dr. Henry Kawamoto, UCLA, USA
10:00 – 10:20	Craniofacial embryology Dr. Karam Allam, Sohag University, Egypt
10:20 – 11:30	Craniofacial cleft classification Dr. Henry Kawamoto, UCLA, USA
11:30 – 11:40	Open microphone session
11:40 – 12:00	Coffee Break
12:00 – 12:30	Craniofrontonasal dysplasia Dr. Henry Kawamoto, UCLA, USA
12:30 – 13:10	Hypertelorbitism Dr. Henry Kawamoto, UCLA, USA
13:10 – 13:20	Open microphone session
13:20 – 14:00	Case presentation and discussion
14:00 – 15:00	Lunch

Session 2: Craniofacial Surgery 2

15:00 – 15:20	Craniofacial symmetry and asymmetry Dr. Karam Allam, Sohag University, Egypt
15:20 – 16:40	Craniofacial microsomia and Treacher Collins syndrome Dr. Henry Kawamoto, UCLA, USA
16:40 – 16:50	Open microphone session
16:50 – 17:00	Coffee Break

17:00 – 17:30

Craniofacial distraction osteogenesis

Dr. Henry Kawamoto, UCLA, USA

17:30 – 18:10

Pierre Robin sequence: neonatal airway obstruction and role of mandibular distraction

Dr. James Bradley, Temple University, USA

18:10 – 18:20

Open microphone session

18:20 – 19:30

Case presentation and discussion

SYMPOSIUM PROGRAM:
TUESDAY, 1ST MAY 2018

Session 3: Neuro-Cranium

09:00 – 10:00

Non-syndromic craniosynostosis

Dr. Henry Kawamoto, UCLA, USA

10:00 – 10:20

Studies in craniofacial biology and growth

Dr. James Bradley, Temple University, USA

10:20 – 11:30

Syndromic craniosynostosis

Dr. Henry Kawamoto, UCLA, USA

11:30 – 11:40

Open microphone session

11:40 – 12:00

Coffee Break

12:00 – 12:20

Post-shunt craniosynostosis and post-craniosynostosis shunt

Dr. Ahmed Elsherbiny, Sohag University, Egypt

12:20 – 13:20

Reconstruction of cranial defect

Dr. Brian Andrews, Kansas University, USA

13:20 – 13:30
13:30 – 14:30
14:30 – 15:30

Open microphone session
Case presentation and discussion
Lunch

Session 4: Orbit

15:30 – 16:40
16:40 – 17:00
17:00 – 17:30
17:30 – 17:40
17:40 – 18:30

Periorbital trauma: management of late sequelae
Dr. Henry Kawamoto, UCLA, USA
Orbital expansion for anophthalmia and micro-orbitism
Dr. Brian Andrews, Kansas University, USA
Orbital decompression in Grave's disease
Dr. Henry Kawamoto, UCLA, USA
Open microphone session
Case presentation and discussion

**SYMPOSIUM PROGRAM:
WEDNESDAY,, 2ND MAY 2018**

Session 5: Orthognathic Surgery 1

09:00 – 09:40
09:40 – 10:20

Genioplasty
Dr. Henry Kawamoto, UCLA, USA
Anterior segmental osteotomies
Dr. Henry Kawamoto, UCLA, USA

- 10:20 – 10:40 Temporomandibular joint considerations in orthognathic surgery
Dr. Mostafa Taha, Ain Shams University, Egypt
- 10:40 – 11:20 Sagittal split of the mandible
Dr. Henry Kawamoto, UCLA, USA
- 11:20 – 11:30 Open microphone session
- 11:30 – 11:50 Coffee Break
- 11:50 – 12:30 LeFort I osteotomy
Dr. Henry Kawamoto, UCLA, USA
- 12:30 – 13:10 LeFort II osteotomy
Dr. Henry Kawamoto, UCLA, USA
- 13:10 – 13:50 Facial asymmetry: common overlooked etiology
Dr. Henry Kawamoto, UCLA, USA
- 13:50 – 14:00 Open microphone session
- 14:00 – 15:00 Lunch

Session 6: Orthognathic Surgery 2

- 15:00 – 16:00
- 16:00 – 19:00

Case presentation and discussion

Interactive group discussion

(all faculty and participants)

- Orthognathic surgery: surgery-first approach versus orthodontics-first approach
- Coffee break
- Orthognathic surgery in cleft patients
- Orthognathic surgery in sleep apnea

SYMPOSIUM PROGRAM:
THURSDAY, 3RD MAY 2018

Session 7: Tumors and Masses

- 09:00 – 09:20 Craniofacial fibrous dysplasia
Dr. James Bradley, Temple University, USA
- 09:20 – 09:30 Management of trans-sphenoidal encephalocele
Dr. Amir Elbarbary, Ain Shams University, Egypt
- 09:30 – 10:10 Frontonasal encephalocele repair: functional and aesthetic considerations
Dr. James Bradley, Temple University, USA
- 10:10 – 10:40 Craniofacial neurofibromatosis
Dr. Brian Andrews, Kansas University, USA
- 10:40 – 10:50 Open microphone session
- 10:50 – 11:40 **Case presentation and discussion**
- 11:40 – 12:00 Coffee Break

Session 8: Miscellaneous

- 12:00 – 12:20 Radiation induced craniofacial deformities
Dr. Karam Allam, Sohag University, Egypt
- 12:20 – 12:50 Role of autogenous bone in craniofacial reconstruction
Dr. Henry Kawamoto, UCLA, USA
- 12:50 – 13:10 Role of BMP-2 in craniofacial reconstruction
Dr. James Bradley, Temple University, USA
- 13:10 – 13:20 Open microphone session
- 13:20 – 14:30 Lunch

- 14:30 – 14:50 Requirements for better craniomaxillofacial training
Dr. Henry Kawamoto, UCLA, USA
- 14:50 – 15:20 Finishing touches for craniofacial malformations.
Dr. Henry Kawamoto, UCLA, USA
- 15:20 – 15:40 Aesthetic alteration of the upper face in craniofacial surgery
Dr. Amir Elbarbary, Ain Shams University, Egypt
- 15:40 – 16:40 Lessons from the masters (closing lecture)
Dr. Henry Kawamoto, UCLA, USA
- 16:40 – 17:00 Open microphone session
- 17:00 Closing and certificates

GENERAL INFORMATION:

Travel and Accommodation:

Attendees are responsible for all travel and accommodations.

For recommendations, please call (+20) 01030021690 - (+20) 01030021694 .

Airport Information:

Luxor International Airport (LXR) is located 3.7 miles outside of Luxor city center. A trip from the airport to the city center costs around 50 LE.

The journey from the airport to the city takes around 25-30 minutes by taxi.

Taxi: Taxis in Luxor do not accept credit cards! It is easy enough in the centre to take a taxi on the street.

The official fare is approximate (In-city fee is 10 - 20 LE, city center to airport Fare around 50 LE), so please check the price before you get into the car.

Currency and Banking: Egyptian pound (LE) is the official currency in Egypt.

Telephone: International dialing for Egypt: Dial «0020» + Telephone Number.

Weather: the average temperature in Luxor in April and early May is hot at 25.6 °C (78.08 °F). The weather is bone dry with no rain and average day length is 12:44 hrs

Official Language: The official symposium language is English.
